These are standard sizes for men. On an athletic man you may have a smaller waist with a particular coat size than the one listed here, but you can't have a larger waist size.

Measuring Women

Waist Size - Men usually have an 8" difference between waist and hip. Women usually have a 10" or more difference between waist and hip. Take a woman's hip measurement and subtract 8". A woman with 40" hips would wear a 32" waist man's trouser.
